

Corporate Training and Consultancy Services on Anti-Bribery Management System (ABMS), Adequate Procedures and ISO 37001:2016 Certification

CBI Introduction

CBI (Coalition for Business Integrity Bhd.) is a nonprofit apolitical business organization championing business integrity and anti-corruption in the marketplace for a better Malaysia. Established in 2014, CBI has been providing services to the corporate sector engaging with the government of the day including MACC as well as working closely with international organisations such as ASEAN CSR, UNODC, OECD and USAID.

Corporate Liability in the MACC (Amendment) Act 2018

With the enforcement of the MACC (Amendment) Act 2018 effective 1st June 2020, all business organisations (regardless of size) registered with SSM are required to comply with the adequate procedures to mitigate corruption risks in the organisations.

How can CBI support your operation?

CBI has a pool of resources certified as ISO 37001 ABMS auditors and trainers can provide the following services:

1. Overview of the new requirements and the legal landscape under this Act
2. In-house training on corporate liability under MACC (Amendment) Act 2018, ABMS and ISO 37001:2016 requirements
3. ABMS gap analysis
4. Implementation of ABMS
5. ABMS internal auditor training

As an NGO, our training and consultancy rates are lower than the equivalent commercial market rate. Besides, we offer further discount to members of CBI.
